THE LATEST OFFERINGS IN HARDWARE, SOFTWARE and THE INTERNET

VIEWSONIC

35 Series LCD
www.viewsonic.com
Hardware, Starts at \$599

The 35 series of TVs is integrated with ATSC/NTSC tuners and includes the 26-inch N2635w (\$599), 32-inch N3235w (\$699) and 37-inch N3735w (\$899). They offer 1366x768 native HD resolution, vivid 500 nits brightness, fast 8m LCD panel response times, and precision video processing to leverage the company's Advanced ClearPicture electronics. Equipped with a range of digital and analog input connections, such as HDMI with HDCP compatibility, DVI, S-Video, composite and component video, these TVs are well suited for using HD set top boxes, surround sound systems and camcorders.

PARAT SOLUTIONS

Tron-X Case for iPods
www.paratsolutions.com
Hardware, \$545

The newest case transport by Parat protects and stores up to 20 iPods with video. It is constructed of impact-resistant ABS synthetic material and a solid aluminum frame. Features include an integrated trolley, detachable shoulder straps and locking latch mechanism. It also offers storage for notebook computers up to 17 inches, and numerous accessory pouches for cables, earphones, docks or power adapters.

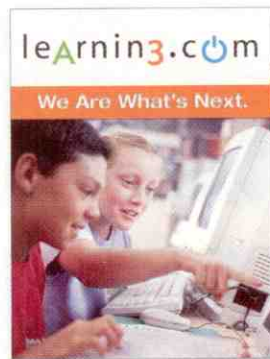

LEARNING.COM

EasyTech, TechLiteracy, Aha!Math
www.learning.com, Software, \$12 per student

The company's three products include EasyTech, TechLiteracy Assessment and Aha!Math. The first is a K8 technology literacy program that allows teachers to integrate technology skills into their math, science, language arts and social studies instruction. As an accurate standard for technology literacy, the second program provides authentic assessment to measure and report technology proficiency for elementary and middle school students.

The newest addition, Aha!Math, is a K5 supplemental math curriculum that uses research-based instructional models and content to improve a student's foundational math skills and help him or her develop problem-solving and reasoning skills. Aha!Math is aligned with the National Council of Teachers of Math Focal Points and state math standards. It uses digital coaches as well as games for practice and refinement skills.

TOON BOOM ANIMATION

Storyboard
www.toonboom.com, Software, \$249.99

Storyboard's software can be used for all audiovisual projects. As a digital application, it enables artists, video makers, advertisers and game developers to validate a storyline efficiently, visualize it quickly and share it instantly. It comes with an intuitive and user-friendly interface and supports industry standard bitmap and vector files. People can use the customizable and searchable captions field, access true multilayered vector drawing tools with pressure sensitivity, reuse assets from the built-in image template library, and export the storyboard to PDF using predefined pages or their own layout.
