- Comfortably transport between locations with pull out handle and rolling wheels
- Built-in power management and patented docking technology
- Integrated Ethernet connection and wireless access point
- Customize to accommodate any make/model netbook. Please call for details.

PARAPRO®

Netbook Classroom Case

PRODUCT FEATURES

Integrated Docking and Cable Management

PARAT's docking system positions ports so that no manual cable connections are required. Insert the netbooks into preconfigured slots for instant connectivity to the built-in power management system. (Specify make and model when ordering).

Easy Access Controls

A clean interface conveniently contains:

- Power receptacle to charge the netbooks
- Power management and wireless access point ON/OFF switch
- Integrated LAN port

Wireless Access Point

An integrated wireless access point conveniently facilitates sharing of online content in any IT infrastructure. Just plug the case to an available network connection for instant wireless connectivity. (Users may specify preference of access point manufacturer and model).

Security

Four rugged latches lock the case. Adding padlock provides additional security.

Mobility

Features a pull-out handle and smooth gliding wheels to effortlessly transport devices between locations.

Durability

The PARAPRO Netbook Classroom Case is constructed to meet the most stringent military and commercial testing standards for maximum equipment protection.

SPECIFICATIONS:
