Parat Solutions Enters Joint Venture with Parat Werke, Offering Mobile Computing Transport Solutions to US

Berwyn, PA – PARAT Solutions has entered into a joint venture agreement with Parat-Werke (Remscheid, Germany). PARAT Solutions will assemble, market and sell Parat’s innovative line of mobile office cases and mobile IT classroom to the U.S. marketplace.

PARAT Solutions intelligent mobile IT transport systems known as the Paradidact®, combine convenience, versatility and connectivity in an aesthetically appealing and seamless solution, allowing K-12 educators and seminar organizers to transport, store, recharge and synchronize up to 30 notebook computers cost-effectively and efficiently. The Paradidact also allows users to conveniently administer updates to the systems or synchronize lesson plans via Wake-on-LAN technology from any remote location.

PARAT Solutions professional mobile office cases integrate notebook computers and mobile printers with their respective power supplies in one seamless solution, allowing convenient and instant access to equipment. The fully integrated system of laptop, printer and optional accessories enables work to be undertaken with a minimum of delay and accommodates almost any laptop, notebook or tablet. The cases are molded from an extremely rugged lightweight material and offer an unparalleled combination of strength, mobility, versatility and durability.

PARAT Solutions products protect users’ investment, give greater flexibility and provide a higher return on their IT infrastructure expenditures. PARAT Solutions Director of Sales Peter Jauss stated, “We are pleased to have formed this alliance with Parat Werke and are excited at the opportunity to position innovative cases to serve the largely unaddressed needs of the mobile professional”. The integrated intelligence in the PARAT Solutions Paradidact® take the computer cart concept to another level and further increases the flexibility schools have in managing their IT resources – and expenditures. Jauss continues, “The Paradidact opens the door for schools to save considerable costs through value-added embedded features currently unavailable from other manufacturers.”

Parat Werke is a leading European manufacturer of notebook cases and bags for mobile computer use as well as tool cases and tool bags. PARAT Solutions provides smart products for mobile computing.
