Parat Solutions Releases Tron-X Case for iPod®

Berwyn, PA July 24, 2007 – PARAT Solutions, an innovative manufacturer of mobile computing transport solutions, today announced the availability of its Tron-X Case for iPod®.

Targeted for the education market, the PARAT Solutions Tron-X Case for iPod® efficiently and conveniently transports, protects and stores up to 20 iPod® with video. Featuring rugged construction of impact-resistant ABS synthetic material and a solid aluminum frame, the case is designed to withstand the rigors of extensive everyday use. An integrated trolley, detachable shoulder straps and locking latch mechanism allow users to comfortably transport and securely store their devices anywhere they are needed.

By ensuring a custom fit for all generations of iPod® with Video, the PARAT Solutions Tron-X Case is an efficient means to solve the challenge of distribution, collection and transport of multiple iPod® models for classroom use. PARAT Solutions Director of Sales Peter Jauss stated, “With storage for MacBook or similar notebooks and numerous accessory pouches for cables, earphones, docks or power adapters the Tron-X for iPod® Case is the perfect complement to facilitate technology-based mobile instruction”.

“At PARAT Solutions, an ongoing priority is to develop products that enable educators to easily distribute computing devices to as many students as possible and providing districts with a means to cost-effectively and flexibly deploy their IT resources,” stated Jauss.

PARAT Solutions is an independent U.S. affiliate of PARAT-Werke and develops “smart products for mobile computing” by combining innovative technology, sturdy craftsmanship, technical expertise and a high degree of creativity.
