

PARADIDACT®

Computers On Wheels One-to-one instruction made easy!

Monday morning, 8:00 AM. You effortlessly push the mobile IT system into the classroom, slide open the notebook storage compartment and distribute the freshly charged computers to your students. You engage the integrated wireless access point at the simple press of a button, giving everyone access to the internet. It's now 8:05 and you are ready to begin your lesson.

This is IT-based instruction made easy with the PARAT Solutions PARADIDACT®:

- You never need another expensive computer room.
- You can provide IT based lessons in any location.
- All of your equipment is under lock and key.
- All notebooks are automatically charged.
- An integrated network connection and wake-on-LAN allow you to administer the notebooks from any remote location.

The system can be configured to accommodate any make or model of notebook.

Easy maneuverability with large rolling casters and ergonomic handles.
Option: Speaker system and metal security lid.

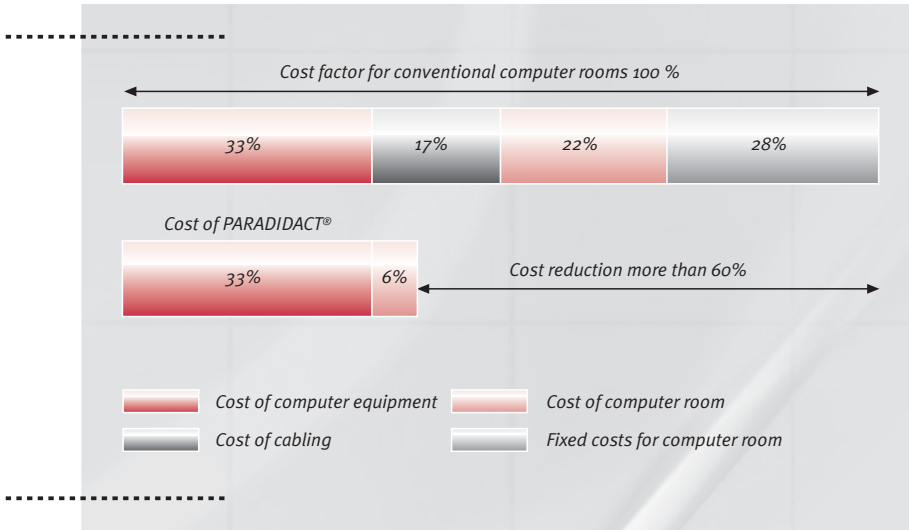

Integrated wireless access point.

Just plug in for charging.

Up to 60% cost reduction

Compared with traditional computer rooms you can reduce costs by as much as 60% with the PARADIDACT® by eliminating infrastructure costs associated with a dedicated room, network cables and assorted fixed costs.

Professional IT-training,
wherever you want.
